Physical science is a branch of natural science that studies non-living systems, in contrast to life science. It in turn has many branches, each referred to as a "physical science", together called the "physical sciences".

### **Outline of physical science - Wikipedia**

Physical activity and, conversely, sedentary behaviours, affect young children's physical and cognitive development. This topic aims to increase understanding of the impact of one's practices on children's motor skills, psychological well-being, social competence and emotional maturity, and to recommend practices for young children.
