Charles Darwin's views on religion have been the subject of much interest. His pivotal work in the development of modern biology and evolution theory played a prominent part in debates about religion and science at the time, then, in the early 20th century became a focus of the creation-evolution controversy in the United States.

Millennials: Confident. Connected. Open to Change Executive Summary. Generations, like people, have personalities, and Millennials – the American teens and twenty-somethings who are making the passage into adulthood at the start of a new millennium – have begun to forge theirs: confident, self-expressive, liberal, upbeat and open to change.
